MAYOR REDD APPLAUDS AMERICAN WATER'S DECISION TO BUILD ITS NEW CORPORATE HEADQUARTERS AT THE CAMDEN WATERFRONT

CAMDEN, NJ – Mayor Dana L. Redd applauded the New Jersey Economic Development Authority (NJEDA) Board for approving site selection to a major development project. With today's EDA Board action, American Water Works Company, Inc., will locate its corporate headquarters within The Camden Waterfront development project site.

“Our City is extremely fortunate to have American Water call Camden home. I am also truly proud to be able to deliver on decades of unfulfilled promises to develop our Waterfront into a world class destination. In addition to relocating to Camden, American Water is dedicated to improving the lives of our residents and has already demonstrated their commitment by volunteering in various community events throughout the City.”

The Camden Waterfront project is a new \$1 billion development project by Liberty Property Trust that includes 1.7 million square feet of office space, as well as a hotel, retail and residential component.

“Without a doubt, it is Camden's time,” Mayor Redd said. “I thank American Water for sharing in my vision of better and brighter future for Camden. Working together with all our partners, Camden will continue to rise – providing hope and opportunity for our residents.”
