

CONSTRUCTION ON HADDON AVENUE - What to Know

Euclid Avenue to Newton Avenue

Here is What's Happening on Haddon Avenue - Summer 2025:

Preparing for Transportation Improvements

Haddon Avenue (County Route 561), between Euclid Avenue and Newton Avenue (County Route 604), will be improved to serve all users, including pedestrians, bicyclists, transit riders, and motorists, as part of a multi-phase upgrade plan for the corridor. Initiated by the City of Camden and Camden County and shaped by community input, this project reflects a shared commitment to revitalizing the Haddon Avenue corridor and its critical infrastructure needs.

Stay tuned for updates as construction approaches.

- Visit the [Project Webpage](#) to learn more about the various improvements and to find out about what to expect during construction.

Limits of Work

Haddon Avenue from Euclid Avenue to Newton Avenue in the City of Camden

Important Dates

(Anticipated)

Water Service Line

Identification – Work to Begin:

May 2025

Water Service Line

Identification - Anticipated Completion:

August 2025

Transportation

Improvements - Construction to Begin:

August 2025

This work will require road construction that may impact traffic patterns on Haddon Avenue. It will also require patience, planning, and adjustments.

WHAT WORK IS BEING DONE THIS SUMMER:

- Grading city-owned lots to prepare temporary public parking, which will be available during roadway and sidewalk construction
- Performing exploratory excavations (test pits) to locate all unknown water services
- Identifying water service line materials at your location. If confirmed to be lead, you will be provided with next steps for replacement.
